

## DIGITAL MICROSCOPE SERIES MCE 031

The digital microscope is a traditional optical microscope and digital imaging system by photoelectric conversion together to observe the real-time dynamic image display.

Parameter functions: L130, 130 000 pixel color image sensor directly connected to a VGA monitor, no additional acquisition devices, you can get a real-time image; variety of resolution can switch directly, without having to restart; easy to operate menu interface through the fuselage of the operation buttons, the user can operate;, both Chinese and English language menu selection; identifies line Show / Hide adjustable, color, style optional; color reproduction is good, image stabilization, support the exposure time late gain, brightness, contrast, saturation and other image enhancements; may record last set, after

the restart without re-adjust the various parameters. With 0.35-2.25 optical lens, imaging high-definition, color reproduction and fast image characteristics.

**FEATURES:** Digital microscope using a newly developed dedicated power supply, with a ring light, camera, display and provides power function of earlier equipment requires a separate power supply and at the same time take up three power outlet easier to install the operating and **maintenance** features.

The Brand: <b>Centurycam</b>	
Model:	<b>MCE 031</b>
Magnification:	Digital zoom 10-250 times
Observed:	3 mm to 15 mm
Working distance:	100-180MM
Pixels:	1300000
Resolution	1280X1024
Camera Specifications:	1/4 "CMOS
Output mode:	VGA
Image refresh rate:	20 frames / sec.
Auto White Balance	Automatic
Operating temperature:	-10-50 °
Input voltage:	5V-2A
Auxiliary lighting device:	Adjustable ring LED light source
Main accessories:	(1) lens (2) focusing mechanism (3) column base (4) camera (5) LED ring light source (6) installation instructions . Can be equipped with 8-inch, 10-inch, 12-inch, 15-inch, 17-inch, 19-inch monitor to use
Scope	For the electronics industry, metal, precision engineering, plastics, industrial product design will continue to improve, the manual is not a detailed description of these improvements.
Product Warranty	The company provide lifetime maintenance services.
